EVALUATION FOR THE SKILLS AND THE CONTENT:
PERFORMANCE ASSIGNMENT: Students will create a digital presentation or a short video project titled “My Ideal Classroom”. They will describe their preferences for learning activities and technologies, explaining why they believe these methods are effective for their learning. For instance, the students will include activities they enjoy, such as group discussions, experiments, or games, and tools like tablets, interactive boards, or online learning platforms. They will organise their ideas clearly, use descriptive language, and provide reasons that support their preferences. Students will then present their projects to the class, engaging in a discussion about diverse learning styles and technologies in the English class. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.
